I must have aged twenty years in the last seven days
Livin' on emotion, disbelieve and rage
I found out the hard way, life is what you make
Sometimes you gotta learn to give yourself a break

You can go where you want to go
You can know who you want to know
Take a good look inside you'll see
Well, you can have it all if you just believe

Time moves in mysterious ways
You're dancing to the music while the music plays
Accelerates and then delays
But time moves in mysterious ways

Accidents can happen and they always do
It only takes a twist of fate to turn on you
I was in the wrong place at just the right time
Thought she was a lover not a friend of mine

You can do who you wanna do
You can screw who you want to screw
In the end it's the fantasy
But not reality that will set you free

Time moves in mysterious ways
You're dancing to the music while the music plays
Accelerates and then delays
But time moves in mysterious

Once it's inside of me
It's like a symphony
On a cloud and I can't come down
It's like a dream, then you come around

You can go where you want to go
You can know who you want to know
Take a good look inside, you'll see
But you can have it all if you just believe

Time moves in mysterious ways
Dancing to the music while the music plays

Accelerates and then delays
But time moves in mysterious

Time moves in mysterious ways
You're dancing to the music while the music plays
Accelerates and then delays
But time moves in mysterious

Time moves in mysterious
Time moves in mysterious ways
