You gave me too many chances  
Now it's drivin' us apart  
I keep on runnin' with the boys, girl  
But then you knew that from the start

It must keep buildin' up inside you  
'Cause you never let it show  
I know I'm hangin' on the edge now  
But I won't let it go

(Ooh)  
Oh, never meant to hurt you  
But somethin' was on my mind  
Just give me one more chance  
We can make it this time

(Stay away, stay away from my heart)  
But I'm tryin' my best  
(Stay away, stay away from my heart)

If you gave me three wishes  
I'd throw two of them away  
I've seen that look in your eyes girl  
I'd use the last one this way

We've been from rags to riches  
But your love can't be bought  
I'm just a junkyard dog, girl  
Who's afraid of bein' caught  
(Ooh)

You're standin' in the shadows  
Watchin' everythin' that I do  
And I know the way things look  
It couldn't be further from the truth

(Stay away, stay away from my heart)  
I'm doin' all that I can  
(Stay away, stay away from my heart)

Remember how it used to be girl  
Makin' love like it's the last time

We held each other close  
Not knowin' what we'd found  
You felt the poundin' of my thunder  
As your rain was pourin' down

(Ooh)  
I never meant to hurt you  
But somethin' was on my mind aey  
Just give me one more chance  
We can make it this time

(Stay away, stay away from my heart)  
Yea, but I wanna stay here with you  
(Stay away, stay away from my heart)  
But I don't know if I can stay away  
(Stay away, stay away from my heart)  
Yea, I'm doin' all that I can do  
(Stay away, stay away from my heart)  
Oh  
But I wanna stay away from you  
Yea, stay away  
Ahh, stay away  
I'm doin' all that I can do

Stay away  
Wanna stay  
Stay away  
Wanna stay  
Stay away  
Wanna stay  
Stay away  
Wanna stay  
I'm doin' all I can do  
Stay away
