Get what you want, be what you are  
It's all coming back, don't go too far  
Everytime I feel, I like losing my heart  
Baby, baby, baby, baby  
Never say never, don't play their game  
Don't fool my heart, I can't stand the pain  
Everything I do, I do just for you  
Baby, baby, baby, baby  
But don't fool my lonely heart,  
Oh don't fool my lonely heart  
There's something going on tonight  
I wanna be right by your side  
There's something going on tonight  
We have a dinner in heaven  
There's something going on tonight  
Oh you can run but you can't hide  
There's something going on tonight  
We have a dinner in heaven  
Wherever you say, you can't stay with me  
I'm losing my heart, and my destiny  
Everytime I feel like I'm losing the game

Baby, baby, baby, baby

Day after day and night after night

I wish you were here, staying by my side

Everything I do, I do just for you

Baby, baby, baby, baby

But please don't fool my lonely heart,

Oh please don't fool my lonely heart

There's something going on tonight

I wanna be right by your side

There's something going on tonight

We have a dinner in heaven

There's something going on tonight

Oh you can run but you can't hide

There's something going on tonight

We have a dinner in heaven
