Baby, there's nobody who's living without love
No baby baby
Baby, there's nobody who's getting just enough
No no
Yeah baby

Oh when you go - is there nothing I can do
Oh why I know - there is some in me and you
Give me one more chance for a sweet romance
There's so much I can do for you for a rendez-vous
Give me one more chance for a sweet romance
Babe there is nothing I can die
Baby, stay with me tonight

Baby, there's nobody who's living without love
Baby let me in your heart
Baby, there's nobody who's getting just enough
Baby, let us try, let us try to start

Can you see, oh I feel it's ecstasy
Oh why did I - look for your secret smile
Give me one more try - oh it's just you and I
There's so much I can dream enough
Specially of your sweet love
Give me one more try - there's a reason why
There is nothing I can die
Baby, stay with me tonight.

Everybody everybody is looking for love
Everybody everybody can't get enough
Everybody everybody - party tonight
Everybody everybody - stay by my side
