"When The Spirit Moves You"

Visit "[When The Spirit Moves You](#)" on MotoLyrics.com

I'm so tired

Of playing you're my friend

When my little baby

It's so hard to pretend

All night

It's turning me 'round

It's taking me down

So I'm telling you now

You've got my number

You just call me when the spirit moves you

You know

Don't be afraid

To just call me when the spirit moves you

You know

Don't be afraid

To just call me

I don't want to

Push your hand

'Cause my little baby

I know we'll never end

Now hold tight

I'm slowing you down

And I don't want you now

With your head spinning 'round

I've got your number

You just call me when the spirit moves you

You know

Don't be afraid

To just call me when the spirit moves you

You know

Don't hesitate

You just call me

You got to call on me

Call me when the spirit moves you

You know

Don't be afraid

Because

I don't need no

One night stands

When I have you baby

I have more than any other man

So hold tight

I'm slowing you down

'Cause I won't take you now with your head spinning
'round

There is no other

You've got to call me when the spirit moves you

You know

Don't be afraid

To just call me when the spirit moves you

You know

Don't be afraid

You just call me when the spirit moves you

You know

Don't hesitate

You just call me

When you feel it move you

Don't be afraid

To just call me when the spirit moves you

You know

Don't be afraid

You just call

(Call me when you feel it move you)

Don't hesitate

(When the spirit moves you)

Don't be afraid
