### "Down On Me"

Visit "[Down On Me](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I don't need nothing that I can't depend upon.  
You can sin with the sinner, but now it's time to pay  
your dues.  
The taste in your mouth, everything so sour now.  
Time to sleep, little heathens, so charming when you're  
near the end.

It's down on me again  
It's down on me again

It's so wrong to think that you've been the victim here.  
Pulled back from the demons I see the shadows  
disappeared.  
The taste in your mouth, everything is so bitter now.  
Time to sleep, little heathens, so charming when you're  
near the end.

It's down on me again  
It's down on me again

Rest it's easy and you're falling for me
