"Healing Waters Of The Tigris"

Through famine, flood and choking mud the ancient
river flows
Bringing life and death, transporting friend and foe

To build their cities by its banks the hopeful people
chose
Fortify the walls - the fortress grows
Secure within the confinness of the stone
But what awaited them they couldn't have known

Healing waters of the Tigris
Ever flowing and all knowing
Healing waters of the Tigris
Washing over me

612 BC the Tigris floods and builds in turbulence
Pagan land of Nineveh - self-righteous over confidence
The rising torrent crushed stone and the courses on it's
way
God's judgment on that fateful day - a terrible price to
pay
The greatest city of all - Nineveh - with a towering city
walls
The awesome power of the swollen river Tigris - caused
that massive city to fall

Healing waters of the Tigris
Ever flowing and all knowing
Living water of Jehovah
Balm of Gilead
