### "Proprioception"

When your life turns upside down  
and it will some day  
where is your proprioceptive sense?

Like the feline that finds the floor on all fours  
is the house built on rock that the devil abhors  
build your house on sand to find  
a cat with one life instead of nine

Proprioception  
balance correction  
innate sense gives direction

Break your fall with daggers  
as your focus staggers - the line knives syndrome

Ghinger, Abyssinian, Tsukahara, Skaukatt, Yurchenko,  
Korat

To "see" with that sixth sense  
when there's no sign of the other five  
3 ½ inward pike - the sense that keeps the diver alive

Proprioception  
balance correction  
innate sense gives direction
