[Words & Music: Ted Kirkpatrick]

When your life turns upside down
And it will some day
Where is your proprioceptive sense?

Like the feline that finds the floor on all fours
Is the house built on rock that the devil abhors
Build your house on sand to find
The cat with one life instead of nine

[Chorus]
Proprioception
Balance correction
Innate sense gives direction [repeat]

Break your fall with daggers
As your focus staggers
The line knives syndrome [repeat]

Ghinger, Abyssinian, Tsukahara,
Skaukatt, Yurchenko, Korat [repeat]
[Slide Solo: Aaron]

To "see" with that sixth sense
When there is no sign of the other five
3 1/2 inward pike
The sense that keeps the diver alive

[Chorus]
Proprioception
Balance correction
Innate sense gives direction [repeat]
Proprioception, proprioception, proprioception...
