"Psycho Surgery"

Cranial vault the minds map paved by heart and soul's
aim

Transfer of DNA forms the cerebral mainframe
Just like a computer garbage in - garbage out
Subdural detour shuns the embrace of logic and
reason
Shrouded in doubt

Divine mental biopsy reveals you need psycho surgery
The renewing of your mind by cosmic mirror

Spiritual angiography illustrates the mind's sorry state
Barnacle ridden psyche man's own demise to
demonstrate
Burrowing mole exposes the dry rot within
Abundance of wormwood, euphemism for sin

Divine mental biopsy reveals you need psycho surgery

By His Spirit the symptoms are starting to clear
(Lead 1 - Cranial Drill)
(Lead 2 - Mendez)

Blind cavefish, inbred victim of ocular atrophy
Inky blackness everywhere, there's no reason to see
Wait is someone there? I can feel the heat
Limbs wax useless, help me, can't rise to my feet

Divine mental biopsy reveals you need psycho surgery
A shred of truth is illuminated by miner's light
Divine mental biopsy reveals you need psycho surgery
From the first touch a faint pulse begins to appear
