"Welcome To My World"

Visit "[Welcome To My World](#)" on MotoLyrics.com

Come take a look inside my head!
Where there used to be sharp meadows
Below the painted windows
Now there's only shadows
That go where the wind goes
So, please come in
And welcome to my world
Step inside I say !
And welcome to my world
Hello all you people won't you come inside
Pay very close attention to me boys & girls
Come on all you crazy fools, just step inside
We're going on a train ride through my slips and
curves
Whatta ya think?
Please come in
And welcome to my world!
Step inside I say
And welcome to my world
