I remember the first day we met
That's the day I'll never forget
You came into my life, made everything right
I remember the first time we touched
Never knew that I could love so much
You ignited the flame, and I still feel the same
Chorus:
I like your style (I like your style)
I like your smile (I like it baby)
I love your heart and I loved you right from the start
I made a wish upon a lucky star
Someone special just the way you are
That wish came true, oh when I found you
Ooooooh
I can still see that star shining bright
With this love there's no end in sight
It's just you and me, we're destined to be
Chorus
Each day is new (I like your style)
When I'm with you (I like it baby)
It's more than on the a, gettin' better in memorylane
There's only one thing that I'd like to do
I want to spend my whole life with you
Till death do us part, because you captured my heart
Chorus 2x
