And this will slowly fade out; this song was made for  
breakdowns

And this will slowly fade out, this will slowly fade out

I know its hot in here but hold me, it's cold without your  
touch

But you don't want to listen, it's cause I loved you too  
much

Please don't ever say, that it wasn't worth it  
Please don't every SAY

[Chorus]

We're moving on, it won't take long

And this will slowly fade out

We're miles away, staying the same

And this will slowly fade out; this song was made for  
breakdowns

We were the only ones to know us

You took the worst of me, and blew it all up

In the face of my reality

Please don't ever say, that it wasn't worth it  
Please don't ever SAY

[Chorus]

We're moving on, it won't take long

And this will slowly fade out

We're miles away, staying the same

And this will slowly fade out; this song was made for  
breakdowns

All alone on this chair I can't sit still, finger on the  
trigger pleased to kill

I think I've found my best way out

All the doors come closing down too high , cause I  
know that your pushing us aside

To find MYSELF

And this will slowly fade out; this song was made for  
breakdowns

And this will slowly fade out

[Chorus]

We're moving on, it won't take long  
And this will slowly fade out  
We're miles away, staying the same  
And this will slowly fade out; this song was made for  
breakdowns

And this will slowly fade out; this song was made for  
breakdowns

And this will slowly fade out, this will slowly fade out  
And this will slowly fade out; this song was made for  
breakdowns

And this will slowly fade out, this will slowly fade out  
(We're miles away) And this will slowly fade out  
And this will slowly fade out; this song was made for  
breakdowns

And this will slowly fade out, and this will slowly fade  
out
