Lost in your twinkle, in star rise
Where the sun rise, ..it's me!
I keep on floating, so fall right
See the shore, the...
Lost in the depths of your cosmos
No reality, just you and me!
You and me!

Chorus:
I get lost in your love, girl
Lost in love
In your love is where I'm from!
I get lost in your love, girl
Lost in love
In your love is where I'm from!

It's something like a star
A love so close to reach far
I feel so deep in my heart
I want that .. apart!
Uhuu, girl!
I just like the way
When the speech becomes a gaze
No more feelings in the game
We can start this thing again!

Chorus:
I get lost in your love, girl
Lost in love
In your love is where I'm from!
I get lost in your love, girl
Lost in love
In your love is where I'm from!

I get lost in your love,
There's where she found me
I get lost in your love,
That's where she found me
I get lost in your love,
There's where she found me
I get lost in your love,

There's where she found me
I get lost in your love,
There's where she found me

Chorus:
I get lost in your love, girl
Lost in love
In your love is where I'm from!
I get lost in your love, girl
Lost in love
In your love is where I'm from!

Lost in love, lost in love, lost in love!
Lost in love, lost in love, lost in love!
Lost in love, lost in love, lost in love!
