I'm sick and tired of the wait
These people make me laugh,
So I had to set them straight
Just as soon as I finished class
Cause I don't know know my place
And I have no regards
And the streets are about to shatter
Like it's motherfucking glass
I'm fashionable late, but I hit the ground running
And I'm just doing me, but catch me if you can, buddy
Ride like the mad haxer, swag like a jack hammer
And I'm flying to the top so you can keep your damn
ladder
And I very rarely show off, cause I naturally go high
Keep my shizzle simple .5 or a mawhawk
And I don't feel bad for the chicks I have to regularly
blow off Cause I'll probably see them later
for some legendary blow jobs,
And I make sure... oh gosh, look at my life
It's like everyone wants a piece of everything I write
shit talkers shove that shit your talking right back
up your colon... bend over kiss your own ass i swear
your nearly there
and now did Anybody even tell my friends that I was
leaving
I cannot remember when it was last that I seen them
I'm who they believe in
and That's more of a reason for
Me to keep on walking and I call them when I'm balling
I don't really wanna spot them, but I cant that let this be
boring
So that champagne will be pouring, cause if I'm in, then
we'r all in
I don' think there'll be much stalling cause this shit it's
looking great
My whole career is balling shit i might aswell...

I'm sick and tired of the wait
So live your life on 3..
tired of the wait
tell them hey bet your lives on me

Tell them hey wel walk away just roll your dice on me

I'm sick and tired of the wait
So live your life on 3
Tell my people roll the dice and bet your lives on me
Cause I'm that fire in that booth ...the answer and the
proof
And even when I'm lying I'm the motherfucking truth
That's why these chickens wana call and all these
fellows wanna know
Everybody wants a bone, and I just want the throne
I'm really not somebody you should ever leave alone
Sleep on me and I'll take over everything you own
very Michael Corleone...never arful gazy
Now everybody's hating cause no one could say they
made me
and they know i was to shook coz they say I broke the
rule book
But I'll say I wrote a new book
You should take a page and use it
no now you look
since i got a killer welcome
i tell the man in the mirror well done
i tell the man in the mirror well done
see I'm not saying I'm the greatest
but I'm in the top 1
i want it all... but for now my life is sweet
coz i'm probably in Brazil just gettin high right by the
beach
under a tree

I'm sick and tired of the wait
So live your life on 3
Tell my people roll the dice and bet your lives on me
I tell them hey roll the dice and live your lives on thrill
Tell them hey we'll walk away roll your dice on me

I'm sick and tired of the wait
So live your life on 3
Tell my people roll the dice and bet your lives on me
I tell them hey roll the dice and bet your lives on me
i tell them hey wel walk away roll your dice on me
