Say goodbye to the brilliant blues

Say goodbye...

It's time, to live

Make me, take me

It's time, to give

So don't betray me, pay me

The brilliant blues

Don't want to be frozen

I'll spend my mornings at the sunshine cafe

I've read the news and the clique-ridden notions

I know that now is the time to say

It's time, to teach

So tell me, come on tell me

It's time, to preach

So help me, come on and help me

The brilliant blues

Will never flow this way again

The colour of the river is grey

The brilliant blues

Have faded into sadness and pain,

And now it's time to say...it's time

You and me are going to finally sail away

We'll get far away from the blues and the mist and the rain

You and me are going to fight until we win the day

For now is the time we must say goodbye

To the brilliant blues

The brilliant blues

Don't want to be frozen

I'll spend my mornings at the sunshine cafe

I've read the news and the clique-ridden notions

I know that now is the time to say

It's time, to trust

So buy me, come on try me

It's time, to thrust

Guide me, stay beside me

The brilliant blues

Will never flow this way again

The colour of the river is grey

The brilliant blues

Have faded into sadness and pain,

And now is the time to say...it's time
