Cats in the cupboard
you've got to set him free
Cats in the cupboard you've got to set him free
Cats in the cupboard
You must set him free

Rats on the high street
You've got to let 'em be
Rats on the high street
You've got to let'em be
Can't you let them be

While you're racing
People wasting
Life's enthralling
People are calling
While you're weeping
Blood is seeping
While You're dancing
No ones answering me

Cats? It's cool for rats
