[sample]

"Who I sleep with is my own personal business"

"Nah, man, no, who you sleep with

The first face you see in the mornin

Is very, significant, man, that's where you get your  
energy from

It's your mirror, can you dig it?"

[Intro: Allah Real (Inspectah Deck)]

I'm thinking of the drop?

Peace beautiful how you doing?

You know I always see you, girl I wanna know

You know what I had in my mind for you

I just wanted to let you know that, damn girl

(To all the queens), just give me a chance

(To all the earths), I know you dig me, and I dig you  
(the goddesses)

And I don't see why we can't make this happen

(All the wisdoms) All you gotta do is have the will in yo  
mind

And the will in mine -- I already got the will in my mind

To say let's make it happen -- (all the syrens)

Let's just see it, man, let's just find out

Because I see the way you look at me, and I look at you

The thing's that on my mind are all the time

It's heaven, girl -- it's just heaven (yo, yo)

[Inspectah Deck]

Love or lust, voluptuous strain struck my eye

Black butterfly, said she'd never love another guy

I was a secret lover, now she says she'll be no other

Hard to keep each other, knowing one day will be  
discovered

See, I love ya, since my childhood, ma, look how you've  
grown

We used to zone off and making love through the  
phone

Now, stay with me, daisy lady drive me crazy

Crazy tried to kill my baby, steal my baby, baby

[Interlude: Allah Real]

Girl, I wanna know, you know what  
Fact, listen girl (I wanna know)  
Just like everybody wanna come at you  
I'm comin' at you, but I'm the real man  
That wanna let you know something  
I wanna let you know, you got it, girl  
You know what I mean? You got it, you got the flavor  
Like raspberry to strawberries, girl  
You the one I need

[RZA]

High priced ice on my neck, cause the windchill  
She melt like a snowflake up against my car windshield  
Eyes like a reindeer, lost, innocent Bambi  
Toss the jammy from me, loved the life family  
Long talks and pillow fights, walking at night  
All she needed was a little light, shorty shining bright  
E-mails flirtin' with you, Bobby bout to burst a missile  
Wanted to hurt or tickle, girl, could you slurp it, would  
you?

[Interlude: Allah Real]

Can you hear me? Can you hear what I'm sayin' to you  
girl?  
I'm trynna show you how much I feel, the way I feel for  
you  
But here we go again, ma, one more time  
All you gotta do is just take a listen  
Just listen to me baby, ok? Just listen  
Listen to my needs, listen to your needs

[Ghostface Killah]

Five and a half in Boys, ass is off the hook  
High school pussy, heard you got the best noogie  
Sugar walls, watch your love, slide right on my dick  
I'm palmin' ya ass like this while you ridin' it  
I'm about to cum boo-boo, chill for a sec  
I feel it at the tip, ma', your pussy too wet  
One false move and I will blast like the very first time  
Burnt you with candle wax/wax, while you was slobbin'  
mine  
Dick is sensitive, you move, baby here it is  
Oh Lord, I told you not to move, you dumb broad  
Cummin' for days, wettin' ya caves  
My dick is like the sprinklers and maybe ya dush, I'm  
here to save the day  
Solomon was wise and I got fifty other bitches  
Some eat bitches, some bitches fuck my niggaz  
Solomon was wise and I got fifty other bitches  
Some eat bitches, some bitches fuck my niggaz

[Allah Real]  
Girl I wanna know..  
You know you always stayin' on my mind  
Listen to our niggaz, ok girl  
Girl I wanna know..  
Because together we can make a change  
That'll be like, ahhh  
You feel me girl, do you feel me?  
Girl I wanna know..  
You always on my mind, girl, always  
I wanna know, you know you always stayin' on mind  
Can you tell me what I need to know girl?
