Riot, fire, hysteria
Waiting vultures watch and shriek
Fear causes delirium, panic has reached it's peak
Violence and spreading disease
Witness to everything wicked, unholy, rotten, unclean
Worship a new God, he can't be seen

We worship the Gravelord - The fires burn bright
We worship the Gravelord - There's no end in sight

Now it's total disaster, present for pain
Punishments faster, when you're going insane

We worship the Gravelord - He'll take us to Hell
We worship the Gravelord - We're under his spell

We worship the Gravelord - The fires burn bright
We worship the Gravelord - He's coming tonight
