It will always fucking hurt
How does it feel to know that you will always be
accepted?
But never fit in

Who are you trying to be
Are you real?
(Or just another)
Why can't we be? (Ourselves)
Understand the freak of nature
Become someone real
Not another fuck up, mix up

Keep me running in fear
fear, fear, fear, fear, fear, fear

Shed my sunshine
Dread my winter
Hide my daylight
A match made for fate
Love-mate-hate

I knew I wanted you
But it hurt before I ever knew
Who are you trying to be?
Are you real of just another?

Shed my sunshine
Dread my winter
Hide my daylight
