The grounds are covered  
We are coming for you  
There is not another soul out there  
We are coming for you

Watch your back I swear we are going to attack  
Watch your back prepare yourself  
All out hell  
All out war

We are on our way  
I am the weapon  
We are on our way  
Take apart dismantle you wont remember  
A thing  
I am the weapon  
I will bring everything I've got  
I wont give up  
I will take one last shot

Watch your back I swear we are going to attack  
Watch your back prepare yourself  
All out hell  
All out war

I am the weapon (Repeat2x)
