

Toxic Narcotic

"5 Billion People Must Die"

Visit "[5 Billion People Must Die](#)" on MotoLyrics.com

So much pollution just take a leave
Do you want to lose you're whole life's worth?
5 billion people must die overbearing waste of the
human race is why
Another religion to aid man's extinction
No use without, control the demonstration
5 billion people must die overbearing waste of the
human race is why
5 billion people must die that's the only way to save the
wildlife
What we dig now is another fuckin' grave
Wondering what they'll do for research on me
There is no future it's far too late we all wanted
something we continue the pace
Everyone's guilty (bonded by your creators)
For what we have done (nothing left but a poisoned
Earth)
No one is innocent (to murder creating my savior)
It's what we've begun (the new religion is mistaken)
No more of you
