I'm so fuckin pissed, where do i begin
I cant afford the rent i can't afford to live
you're so fuckin rich you'll never comprehend
hungry, sick and stressed, is all i understand
bullshit conditions are real im so sick of it
but somehow we deal (how ya feel)
bullshit conditions exist
takes all that i got just to persist
bullshit conditions we're in
i'm so sick of it but that's how we live (how you been)
bullshit conditions exist
takes all that i got just to persist
