its time for the murder of all these musicians
backstabbers, egotists and politicians
think ur something specail cuz ur in a band
let me make it clear so u understand
ur music is generic and ur lyrics are SHIT!
and the way u treat ur fans really makes me sick
punk is in a stae of emergency
is there anybody left with integrity?

sellout bands ur time is through
fuck ur music and fuck u to
all you bands suck and u kno its true
heres ur shovel you kno what to do

dig ur own pit and kneel in front of it [x3]
its an endless parade of generic shit
dig ur own pit and kneel in front of it

its time to put an ened to ur useless existence
and all ur so called friends in this record business
now ur out on tour sellin for the vans
let me make it clear so u enderstand
ur music is generic and ur lyrics are SHIT!
and the way u treat ur fans really makes me sick
punk is in a stae of emergency
is there anybody left with integrity?
