Corporate Beer that tastes like shit,
Profit as they sell you piss
Doesn't cost that much at all
To sit at home and brew your own
[Chorus:]
I want homebrew!
Cider lager stout & ale
Have a pint, it's not for sale
Pride in what you made from scratch
Sucking back a fresh brewed batch
I want home brew!
Buying corporate beer is like buying corporate rock
Production for consumption that will never stop
We brew it thick and rich, because we're thin & poor
Support the independant when we buy it at a store
[Chorus] (..i believe)
Homebrew music
Homebrew beer
DIY for life, the situation's clear
To everybody down, i raise my glass & cheer
And have another drink of that homebrewed beer
