ahead of your game thats where you want to be placing
the blame and coning peoples sympathy whats in your
head do you feel any shame i called you my friend now
i cant stand your name l.i.a.r. your to blame l.i.a.r. you
know how i feel if its happened to you people talkin shit
that isnt even true its only couse you got nothing better
to do shut the fuck up and get a life lies implications
and rumors spreading like cancerous tumors lies
implications and rumors feeding the hunger of the
gossip consumers i dont give a shit what you say or do
couse all that shit heard about me isnt even true you
should hear the shit that ive heard about you so shut
the fuck up and realize riding coat tails for your gain
twisting stories add your name speaking highly of
yourselfcousing shit for everyone else lie about all
those you know can't tell if you're friend or foe words
you speak you're full of crap you just better watch your
fuckin back
