Selfless defense of freedom and rights  
Justice comes at such a heavy price  
One step too far and then you cross the line  
Are you willing to make that sacrifice?

Chorus:

Will you stand up for what is right-Only the wrong  
survive  
Are you afraid to fight- Only the wrong survive  
Many of you won't even try- Only the wrong survive  
The righteous ones always have to die- Only the wrong  
survive

Distorted lies, attacked from all sides  
Another one who spoke out lost their life  
Don't even try to rationalize  
Why the religious ones always have to die

Chorus:

Will you stand up for what is right-Only the wrong  
survive  
Are you afraid to fight- Only the wrong survive  
Many of you won't even try- Only the wrong survive  
The righteous ones always have to die- Only the wrong  
survive

The innocent suffer so the wicked can thrive  
On the millions of civilians who have lost their lives  
Don't believe your leaders 'cause their all fucken lying  
All the wrong people are dying

Only the wrong survive.... x4

The innocent suffer so the wicked can thrive  
On the millions of civilians who have lost their lives  
Don't believe your leaders 'cause their all fucken lying  
All the wrong people are dying
