

Toxic Narcotic "People Suck"

Visit "[People Suck](#)" on MotoLyrics.com

War for race, church and state or just for hate
Annihilate, oppress, enslave
Pollute and waste, rape and burn
With no concern till all is spent

All races, creeds, religious secrets or governments
People suck. destroy the earth with greed
And thirst to come in first
Power sick with envy, lust and genocide

Do you need another fucking reason why people suck
I'll say it to your face, fuck you, you fuckin' fuck
I hate the human race, fuck you, you fuckin' fuck
It's just a useless waste, fuck you, you fuckin' fuck

I'm a human racist and people fuckin' such
It is no surprise you close your eyes and hope
It goes away when will you realize power corrupts
And that will never change

Don't believe the lie that there can be any peace or
unity
Humanity must die, then there will finally be equality
