Toxic Narcotic "Population"

no compromise, outright reject your excuses, lies, responsible for neglect cause the drastic decay has begun to infect what you thought was okay all fucking wrecked standing alone, as the the future reigns to stain what's home

with no control, as the slimy resin takes it's toll Capitol - Lies, to insure the system keeps us poor Everyone dies, grinding at the schemes to feed them more and more

I'm justified, for all that's done to reverse the tide Aware and unaware can collide To expose the fact, there's no place to hide

Shit's fucked, just watch the world die
Cause you can, cause the man's not tired of your cry
till silent run the gears of motoring change
Crippled by the overbearing scum we create
There's no "just in case", upon us is waste
I don't wanna hear it cause it can't be replaced
look around see you fucked your world up
All the things you do finally caught up with you
Come on, no need to consider this
It's not our fight it's for environmentalists
Wrong you gluttonist scum.

Segregat, separate, delay your doom impending fate Thought youre safe, safe are few, find out who youve been sold out to

Perpetuate the company, kill it off tree by tree
Rape, burn, infecting it, profit while we live in shit
Buy some time, let others fight the uphill climb
Too late for us there's no sense in even trying
Forfeight, scum creator you succumb
Into it, unsaddle or battle till done
Caught amongst the politics of throwing rocks and
swinging sticks

Goneis our last chance to fix, you stupid fucking hypocrites

Futures all a heavy ball wrapped around your neck you fall

Ball sinked, to it youre linked, finding out we'll be extinct.
