Seeking, working for the man
Information leaking, Ill kill you when you can
Keeping, decieving all the lambs
Rake up your reapings, conceiving all your scams
Youre hooked, now you understand
Rocks are cooked, riding for the crash
Land on your master
Die you Fucking Bastard
Dyer is the state at Hand
Corruption and destruction, needing to expand
Liar filling the demand
CIA to terminate, genocide as planned
Youre fucked, now you understand
Soul is sucked, riding for the crash
Land on your master
Die you fucking Bastard
Standing in disaster
Listen to the laughter
Always selling Shit.
