

Toxic Narcotic

"Shoot People, Not Dope"

Visit "[Shoot People, Not Dope](#)" on MotoLyrics.com

open your eyes its clear to see
that the heroin trade is a big industry
more people die through this slavery
then you could ever kill in a shooting spree
your support of this corporation
is killing people in these third world nations
harvest transport and distribution
stop the demand is the only solution
convinced that your a loser and youve got no hope-
shoot people not dope
sick of being picked on and u just cant cope
shoot people not dope
sitting in the dark in ur room all alone
shoot people not dope
go out with a blast not a whimpering moan
shoot people not dope
load up the needle shoot in the vein
another fix to cure the pain
either way they call u insane
ive seen the light and theres a another way
