sick of what you say and do
everything that troubles you
is this the way you live your life
creating all this useless strife
situations you create
all these things you fuckin hate
nothing gonna change, yeah its always gonna suck
quit your fuckin bitchin and shut the fuck up
everyone has problems, its never gonna stop
here's a good solution-SHUT THE FUCK UP
everyone knows someone that fits this description
you know there fuckin useless
its always something
the only way to make a change
hard work and conviction
im tired of excuses
its always something else!
nothing gonna change, yeah its always gonna suck
quit your fuckin bitchin and shut the fuck up
everyone has problems, its never gonna stop
here's a good solution-SHUT THE FUCK UP
