verse 1:

He wanted drama so I brought him pain  
wadadadang  
listen to my nine millimeter go bang  
out goes your brains; feel the motherfuckin terror  
and you ain't felt the comin of death like this ever  
you paused; and now I got a Colt 45  
semiautomatic explodin between your eyes; surprise  
you never thought your yesterdays would come back to  
haunt you  
but believe me, I've come back to haunt you  
I'm bout to bring your dog days to you mista  
cause rules in the streets you come off we come get ya  
and hit ya'; and I done let you slide a few times  
but eventually you gots to die in due time  
sunshine

chorus:(x2)

sunshine  
everybody needs  
sunshine  
my life, my life, my life

verse:

his mama must've got the news  
the little boy that she gave birth to was on of them  
niggas they pulled  
out the room  
and all my other little homies stood shocked  
while they watched my other little homie bleed non-  
stop  
on the other side of sorrow is a father being torn  
apart by the sight of his son's lying in the morgue  
he mourned cuz now he got to deal with the fact  
that his child is gone and tears can't bring him back  
turn on the T.V. and seen the unabomber  
I flew to D.C., still they got no karma  
and everybody say they think its all gonna change

you paint me pictures, but they all look the same  
its strange, I'm standin in my own frame of thought  
remainin in the street game framin which I was taught  
I was taught to always keep my eyes open wide  
cause in these streets you got to ride or you die  
I've seen a child born and I've seen a man die  
can't live forever and I understand why  
so when your time comes will you crawl or be brave  
and in between judgement will you fall or be saved  
sunshine

chorus

verse 3:

tears rolled town his face as he stared at his potna  
with his chest full of holes and his head full of coppa  
broke his ass off something propa; he's in the morgue  
with his brains in a shitbag and a toetag on-gone  
this motherfucka must've thought he was a cat  
and had nine lives but ended up on his back  
and then the reaper came and took control of your  
mind  
and you can't think you got a hole in your mind  
you dyin' and can't nobody bring you out your coma  
when this nigga brought the end and turned the lights  
out for ya  
see ya and I wouldn't want to be in your position  
cause starin' the shaft of a strap and you the mission  
means one thing you let a mothafucka catch you on the  
sneak tip  
and put your ass off in some deep shit; got the deep  
six  
and everybody sad sendin' flowers to your ceremony  
they lost thier motherfuckin' homey  
damn Audi 5 on some dumb shit  
and motherfuckers steady riskin their safety behind  
this dumb shit  
but I refuse to give a nigga mine  
I give a nigga nine
