Harry Cross, Harry Cross he's not a lucky bloke
he's always blue what can he do now Edna's had a
stroke
Harry Cross, Harry Cross she's always in his head
Now Edna's kicked the bucket Edna's snuffed it Edna's
dead.

9 o'clock the postman knocks but Harry's still in bed
"Go away" Harry'll say I've got an aching head
don't bother meeeeeeee

Ralph's his mate but he can't wait to get out of his way
"Go away" Harry'll say I want some peace today
don't bother meeeeeeee

Harry's full of misery, Harry's always busily
permanently down
Always being rude with
Always in a mood with Raaaaaaaalph
[Chorus]

It's such a task for Ralph to ask to borrow Harry's car
Oh "Here's the keys" now get lost please have you
gone yet?
Tara! don't bother meeeeeeeeeee

Harry's full of misery, Harry's always busily
permanently down...
[Chorus]

He's always sad n' lonely now Harry's lost his wife
coz Edna was the only Lady in his life
and now he takes it out on Raaaaaalph.
[Chorus]
