Oh I can't forget a girl I knew  
H.O.'s her name, I bet  
there's no one else to blame  
for I used to be an easy going man  
but now I'm the one of the millions  
that she's made feel the same

*[Chorus:]*

Oh she's a stick of dynamite  
she will go go go  
and if you meet her one fine night  
you'll know.....that  
H.O. I told you so  
when she gets a hold of you  
she never lets go  
H.O. your mind will blow  
destroy the human race  
H.O. I told you so  
when she gets a hold of you

she never lets go  
H.O.H.O.H.O.

Oh she is going to rule the world  
H.O.'s got  
the determination and power in her hands  
so look out for a blue flash in the sky  
blue baby  
haleys comet hasn't got a look in now

*[Chorus]*

Oh I am warning you stay clear of  
H.O.'s electric danger  
to the like of you and me  
I've been frightened to do what I say  
you'd better lock your door  
you'd better hide yourself away...

*[Chorus]*
