She looks so grand a one night stand maybe  
I took my chance I said "let's dance baby"  
How was he to know, she would never let him go  
Back at my place, in an embrace, we were  
And stuck together I could never leave her  
If he only knew, he'd fallen for a tube o' super glue

*[Chorus]*

She's a leech - she's my shadow, she won't let go, NA  
NA NA NA  
She's a leech - she's schizophrenic, she's magnetic, NA  
NA NA NA, stuck on me  
Life's been hell since she got welded to me  
I go nowhere unless she's there, ooooo  
Can't escape this one, skintight fatal attraction

*[Chorus]*

she sucked me dry

Twas fortunate when my best mate wooed her  
He's a blockhead he's been bonded to her  
With his bird in bed, now she's stuck on him instead:

*[Chorus]*
