It's not the first time somebody has ahd the flu,
Remember when you had toothache...
A hot lemsip will help the sneezing so,
You will have to stay happy...

[Chorus:]

Remember...
Worse things happen at sea,
Keep dreaming of better days...
Keep dreaming of better days...

I know it's crap when there's something in your eye,

Think yourself lucky you've not got a bad back,
It's pretty sore when you have a mouth ulcer,
But you have got to stay happy...

[Chorus]

I know it's sad when your face is acne,
But don't be put off by some yellow spots,
So you got a toe nailthat his growing in,
You have got to stay happy...
