I'm gonna hold you in my arms  
Never let you go  
No no no no  
Take me higher let me go  
I'm losing control  
No no no no

I'm gonna hold you in my arms  
Never let you go  
No no no no  
Take me higher let me go  
I'm losing control  
No no no no

Take me higher let me go  
Feel the tension in the air  
We dont need to love each other  
Thats just the way  
Lets get down just one night  
People know whats going on  
Lets get down just one night  
Tonight tonight

I'm gonna hold you in my arms  
Never let you go  
No no no no  
Take me higher let me go  
I'm losing control  
No no no no

Take me higher dont let me go  
This feeling that will fade  
Just like tripping, feeling hot  
We're reaching for the sky  
This desire that share  
Is a temporary thing  
Tomorrow morning never comes  
Remember me by this
