

Toya**"I Think I Like You"**

Visit "[I Think I Like You](#)" on MotoLyrics.com

You ain't my type, but I think I like you
You ain't dressin fly, but I think I like you
You ain't the right height, but I think I like you
It wasn't love at first sight, but I think I like you
They say you kinda new, but I think I like you
I don't like your crew, but I think I like you
I don't know why, but I think I like you
It wasn't love at first sight, but I think I like you

I don't know, I don't know when
But somehow you seemed to move right on in
Didn't look like any man I'd be with
So I decided I'd keep you as a friend
After we had started spending some time
I had to stop and look at you one more time
Its been a while since someones treated me right
I'm so glad I've got you in my life

(Bridge)
Never thought that you would be
The one that makes me happy
Loving you has taught me
To look much deeper than the eyes can see (eyes can see)
oh baby

(Chorus)
You ain't my type, but I think I like you
You ain't dressin fly, but I think I like you
You ain't the right height, but I think I like you
It wasn't love at first sight, but I think I like you
They say you kinda new, but I think I like you
I don't like your crew, but I think I like you
I don't know why, but I think I like you
It wasn't love at first sight, but I think I like you

You and me, we come from two different worlds
but that ain't gonna stop me from being your girl
I'll be with you from now until the end
You never know what lifes gonna bring your way
You ain't actin like a typical man

Trying to get from me whatever he can
I can't judge you by the cover your in
Cuz I'd be missing out on what your givin

Never thought that you would be
The one that makes me happy
Loving you has taught me
To look much deeper than the eyes can see (eyes can
see)
oh baby

(Chorus 3x)

You ain't my type, but I think I like you
You ain't dressin fly, but I think I like you
You ain't the right height, but I think I like you
It wasn't love at first sight, but I think I like you
They say you kinda new, but I think I like you
I don't like your crew, but I think I like you
I don't know why, but I think I like you
It wasn't love at first sight, but I think I like you
