(Willcox / Bogen)

The meeting commences in the arena;
Gladiators and space defectors.

In walk the druids and the shock troops
In walk the druids and the shock troops

Ringside seats, bird's eye views,
Video cameras only tell the truth.
Milliards of youths complacent in their eyes
Of their contemporary sleuths

In walk the druids and the shock troops
In walk the druids and the shock troops

Witch-wizards sat on cosmic thrones,
The new age crowned of skin and bones.
The sacred priestess of Merlin The Mage,
Opens the book, she turns the page.

Then in walk the druids and the (screaming) shock
troops
In walk the druids and the (screaming) shock troops
Then in walk the druids and the (screaming) shock
troops
(Screaming, screaming)
In walk the druids and the (screaming) shock troops
(Screaming)...

This mercy of silence,
An orgy of peace.
They're all here from every sphere,
From every planet to shake their spears.
Divide the lands of the halls of Pan.
Painted warlords in their hordes,
ASA kings and OBI queens
Step from my skull and live my dreams.
