(Willcox / Bogen)

This is a word in your ear  
Can you hear?  
We have come for your minds  
We walk the streets arm in arm  
Hand in hand  
With charm and chance

We are the chosen ones  
We are of moon and sun  
We are lots of fun  
We are the only ones  
We move  
We dance  
We sing  
We burst into flames  
We are the chosen ones  
We are painted ladies  
We are of moon and sun  
We are painted boys  
We are lots of fun  
We are liberators  
We are the only ones  
We are the golden ones  
We move,  
We dance,  
We sing  
You touch,  
We burst into flames

Yes, this is a word in your ear  
Can you hear?  
We have come for your minds  
We walk the streets arm in arm  
Hand in hand  
With charm and chance

We are the chosen ones  
We are of moon and sun  
We are lots of fun

We are the only ones  
We move  
We dance  
We sing  
We burst into flames  
We are the chosen ones  
We are painted ladies  
We are of moon and sun  
We are painted boys  
We are lots of fun  
We are liberators  
We are the only ones  
We are the golden ones  
We move,  
We dance,  
We sing  
You touch,  
We burst into flames

Now  
The time has come  
To call a romance  
Take a chance  
Take a leap  
Make a modern classic dream
