I remember

Darkness and bright lights from the closed shops
around me
there's a stranger a stranger I know so well
I've seen him for the first time today

Feelings in my head shivers down my spine thoughts
running wild
and I don't know what to do
Standing so close to him
wanna step even closer but don't dare
to his eyes they watch me
recognize every move I make and I feel so damn
strange
Feelings in my head
shivers down my spine
thoughts running wild and I don't know what to do

Now I'm here and I remember every single moment I
remember every move you made
I remember everything I remember you
A voice whispering inside of me
but I cannot listen now his cheek, his hands, so softly
we part, I walk away
aware of the beauty of this moment
I want to recall it relive it repeat every second
make sure it is true
Now I'm here and I remember every single moment I
remember
every move you made I remember everything I
remember you
