(Bennett / Tacye)

Wherever you are
You flame like a star
I can see over you
Wherever you are
You flame like a star
I can see over you

Nowhere else to run
Waiting for the sun down
If you say you're mine I'll never leave you
Turn your lights down low

Wherever you are
You flame like a star
I can see over you
Wherever you are
You flame like a star
I can see over you

I can see you glow
There's no need to go down
This could be a sign that they believe you
Turn your lights down low

Wherever you are
You flame like a star
I can see over you
Wherever you are
You flame like a star
I can see over you
Wherever you are
You flame like a star
I can see over you...
