"Ride On"

Visit "[Ride On](#)" on MotoLyrics.com

So u think it ain't right
The way I give mine
And what you describe
Well let me tell u like this
When I didn't have nothing
There weren't nobody giving me nothing
So I had to make something happen
The only way i know how
Was probably go down
'cos everybody was singin' and rappin'
I get my ride on

(Chorus)

Ride on (ride on) with all of my niggas
So what u hear me say
Right one, 'cos it's 'bout to get bigger
But I still gotta ride on
To get up on top
'cos he told me not to leave it a lot
That must keep lights on

I was reading in the paper yesterday
Say they cleaning up the streets around my way
To many niggas on the corner
Couldn't make no money if u wanna
And not one time riding through everyday
So I'm thinking like
Things 'bout to get a whole lot better
Black 64 with a truck full of cheddar
Picture my homies all born in the ghetto
With a packet off iceberg sweat
Listen to me
When my mama stop working
I can stop this shit
But until that day u gotta deal with this
I told y'all I'm a stay real with this
Still make a couple mil with this

(Chorus)

(Rap by Lil' Wayne)

On good times this stuff
Is often meter
Warn your people
Wayne is a walking heater
Flames all over
The game"s all over
I told y'all niggas
Now your reigns all over
Listen, don't play with me
That's 'cos I strap up quick
But holla tips
And glack clips
And my niggas they don't spray quickly
That's 'cos I kiss my ride on
It time to kill niggas 'cos the lights on
Bandana tied on
Plant em over ice
Ten I brick the price
It's raw with no slice
I'm duckin' blue and whites
And yellow drive presser
Guns off my dresser
Set 'em on my leather
See I just told 'm to ride like that
So I'm a be like that
That's how I get come weaziwee like that
I'm from the streets like that
And on these streets I'm gonna die
The G-code is what we live by
For every buy

(Chorus)
