"Tribal Look"

Make a tribal look
Take a tribal stance
Don't look back
Don't look back
It never stood a chance
Ooh - lo lay oh
Make a tribal look
Take a tribal stance
Charge into battle
Go on
Try

What's a why, why a wherefore
It's below me to say so
Roll over
No don't look down be careful
What's a why, why a wherefore
It's below me to say so
Roll over
No don't look down be careful

Make a tribal town
Take a tribal wife
Don't break laws
Don't break laws
You'll never stand a chance
Ooh - lo lay oh
Fight yourselves in battles
Go on
Why?

What's a why, why a wherefore
It's below me to say so
Roll over
No don't look down be careful
What's a why, why a wherefore
It's below me to say so
Roll over
No don't look down be careful

Where do we go from here?

Where do we go from here?
Roll over
Start again now

Don't look back
Don't ask why
It happens only once in a lifetime
Ooh - lo lay oh

Take your tribal wife
Make a tribal child
That's the tribal way
To lead a sleepy life
Ooh - lo lay oh
Go on, live your sleepy life now
Why?

What's a why, why a wherefore
It's below me to say so
Roll over
No don't look down be careful
What's a why, why a wherefore
It's below me to say so
Roll over
No don't look down be careful

Don't look down
Don't look back
It's distasteful
This is the tribal way

You want to turn back
You want to survive
You've got to survive
The tribal way
Turn back today
It's the tribal way.
