Chorus

There ain't nothing wrong with me
that you can't fix.

There ain't nothing wrong with me
a little TLC can't lick.

I got last year's body,
a couple of dents,
but there ain't nothing wrong with me
that you can't fix.

Well, I know I may not seem like much of a prize
parked here next to these new model types.

My paint is faded and my tires are worn,
but my motor still runs when you get me warm.

I've been around the block a time or two.

I'm what they call "slightly used."

I've rolled it over a couple of times,
but I think of myself as a real good wine.

Chorus

There ain't nothing wrong with me
that you can't fix.

There ain't nothing wrong with me
a little TLC can't lick.

I got last year's body,
a couple of dents,
but there ain't nothing wrong with me
that you can't fix.

Oh clean me up,
put my top down,
I'll take you right through the heart of town.
I'll show you places you've never been
and if you like them we can do them again.

There ain't nothing wrong with me
you can't repair.

There ain't nothing wrong with me,
I had an owner that did not care.

Oh look me over and give me a kick

'Cause there ain't nothing wrong with me that you can't
fix

Oh, I'm rolling now.

Chorus

There ain't nothing wrong with me

that you can't fix.
There ain't nothing wrong with me
a little TLC can't lick.
I got last year's body,
a couple of dents,
but there ain't nothing wrong with me
that you can't fix.
I got last year's body,
a couple of dents,
but there ain't nothing wrong with me,
there ain't nothing wrong with me,
there ain't nothing wrong with me,
that you can't fix.
