Shout it out  
Truth or dare  
Show that you're hurt  
You know that I care

Take a chance  
Let it go  
Pretend you are dreaming  
Just cope with the flow

Now that I fire  
feels like a dream come true  
Give me a sigh  
Waiting around just for you  
Cause I'll be here for you

I believe in you  
And all you things you are  
I believe in you  
For now and forever  
And now and forever more

Close your eyes  
make a wish  
I'm sending a thought  
I have sealed with a kiss  
Fly away  
Make demands  
You know I'll be waiting  
if you need a friend
