[Maurice] In the middle of the night as you come sneaking in right beside me Thoughts of you with another man keep running in and out my head But you gotta say your defense, my insecurities got me tense And my body's fooled, I'm reaching my breaking point with you Don't say I need to trust in us, cuz all you trust is a place by lust For another man, tell me who, why, where, when Regardless what you say, ain't no more running from the truth, I know they're lies anyway [Chorus: Maurice] Everytime, you leave, baby You hurting, me, baby Do you think of me, baby When you're in his arms, you know I'm waiting for you at home I can't believe, baby Gave you all of me Have you, no, regrets, for all The lies you told, nights you went out Creeping on me, cheating on me [Maurice] In the middle of the night, as I'm awoken by your cellphone ringing Thoughts of you with another man keep running in and out my head You take yourself to another room, I'm wondering who you talking to you So then you point the finger at me, but look at you I invisioned better things for us, but I see you stray too far to clutch Of what we had, don't understand how this happened I've been running from the truth, but at this point I have no choice There's no room in my life for you [Chorus] [Maurice] Mind goes back and forth Don't know much longer I can hold On I feel it's been a lie from the start And it's been a lie... My heart can't take no more Leave the keys all out the door I'm torn between two, cuz I'm Still in love with you, baby... [Chorus 2X]
