[Chorus]

Come out my love, I'm not the one that you were
looking for
I'm not the shoulder you should cry on
I am the one you should've let go
Come out my love, I'm not the one that you were
looking for
I'm not the shoulder you should cry on
I am the one you should've let go

Out my door, on the street,
You then walked, next to me
Through the cold, through the heat
Coming down in my sleep
Grab my arm, whispered deep
How I'm alone, when I think
You're my slow wearing seek
I'm your crush

[Chorus]

Come out my love, I'm not the one that you were
looking for
I'm not the shoulder you should cry on
I am the one you should've let go
Come out my love, I'm not the one that you were
looking for
I'm not the shoulder you should cry on
I am the one you should've let go

See it by ...see it...
See the streets, see it crushed
All my songs, all my dreams
Yeah I ponder what you think of me

As you said, do you play
Do you risk for a break
On my throne, this is me
I'm your crush

[Chorus]

Come out my love, I'm not the one that you were

looking for
I'm not the shoulder you should cry on
I am the one you should've let go
Come out my love, I'm not the one that you were
looking for
I'm not the shoulder you should cry on
I am the one you should've let go

...So our, little babies can sleep
And all of the plans that we've made
Are just like a rose on a grave, whoa
...So our, little babies can sleep
And all of the plans that we've made
Are just like a rose on a grave, whoa

[Chorus]
Come out my love, I'm not the one that you were
looking for
I'm not the shoulder you should cry on
I am the one you should've let go
Come out my love, I'm not the one that you were
looking for
I'm not the shoulder you should cry on
I am the one you should've let go.
