She's always on my mind,  
From the time I wake up  
Till I close my eyes  
She's everywhere I go  
She's all I know

Maybe my love will come back some day  
Only heaven knows  
And all I can do is hope and pray  
Cause heaven knows

Why I live in despair  
Wide awake or dreaming  
I know she's never there  
And all these time i act so brave  
I'm shaking inside  
Why does it hurt me so

Maybe my love will come back some day  
Only heaven knows  
And all I can do is hope and pray  
Cause heaven knows
